Checking for 1NF

Pilot

StaffID	FirstName	LastName	PassportNo	Adress	Gender	Designation	DateJoined	AirlineTrainingDetails	AcadamicEducationDetails	AircraftModel	FlyingHours	TotalFlyingHours

The table **Pilot** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

FlightAttendant

StaffID	FirstName	LastName	PassportNo	Adress	Gender	Designation	DateJoined	AirlineTrainingDetails	AcadamicEducationDetails	TotalFlyingHours

The table **FlightAttendant** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

Passenger

PassportNo	FirstName	LastName	Gender	Nationality	DOB	PassportIssueDate	PassportExpiryDate

The table **Passenger** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

SpecialRequirements

PassportNo	RequirementDetails

The table **SpecialRequirements** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

Minor

PassportNo	AcconpanyPassportNumber

The table **Minor** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

Arrival

LegNo	ArrivalTerminalNo	ArrivalTime	BaggageBeltNo

The table **Arrival** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

Departure

LegNo	DepartureTerminalNo	GateNo	BoardingTime	DepartureTime

The table **Departure** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

Delayed

LegNo	Reason

The table **Delayed** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

Canceled

LegNo	Reason

The table **Canceled** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

Passenger_Contact_No

PassportNo	ContactNo

The table **Passenger_Contact_No** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

Pilot_Contact_No

StaffID	ContactNo

The table **Pilot_Contact_No** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.

FlightAttendant_Contact_No

StaffID	ContactNo

The table **FlightAttendant_Contact_No** does not have composite or multivalued attributes and isn't consisted of nested relations.
Therefore the table is already in 1NF.
